

AUSTRALIAN
SCIENCE &
MATHEMATICS
SCHOOL

Can You Help?

The ASMS is seeking experts in the fields of science, technology, engineering and maths (STEM) to offer project, presentation and mentoring support to our students.

The ASMS is a leading school in the international network of specialist science and mathematics schools. Through our partnership with Flinders University, we are responsible for leadership of reform of science and mathematics education across South Australia. Our students choose to enrol in the ASMS because they are interested in maths and science. To help us further enhance our student’s experiences we are seeking early, middle and late career experts in the fields of STEM who wish to engage with ASMS students, to register their areas of expertise and interest with us. Offers of engagement can range from guest speaker presentations, project and research support, mentoring of students, field work support, student placements and judging of exhibitions. For further information about the ASMS please visit: www.asms.sa.edu.au or contact Rachel Koek, ASMS Executive Secretary at: rachel.koek@asms.sa.edu.au. To register your interest, please complete the registration details and email to: dawn@emuconsulting.com.au, fax to: 08 8201 5685 or phone Dawn Hawthorn-Jackson on 0438 341 153.
