

# Overseas Study Tour Opportunities 2020

Cultural immersion, foreign languages and historical landmarks are just a few things students will encounter on an educational tour. Educational travel changes students' lives for the better, with a lasting impact on their worldview and the way they interact with others.

Each year the ASMS provides opportunities for students to participate in interstate and overseas study tours and exchanges. The overseas tours / exchanges are between 1 to 4 weeks in length, the interstate tours are 1 week. Students in years 10 and 11 are able to apply to participate in any of the following study tours for 2020. The overseas tours consist of the event plus two to three days of cultural experience in hotel accommodation.

All information and application forms are available from pin boards around the building, first floor reception and the ASMS website, [www.asms.sa.edu.au/international/study-tours-overseas](http://www.asms.sa.edu.au/international/study-tours-overseas)
