

Overseas Study Tour Opportunities 2021

Cultural immersion, foreign languages and historical landmarks are just a few things students will encounter on an educational tour. Educational travel changes students' lives for the better, with a lasting impact on their worldview and the way they interact with others.

Each year the ASMS provides opportunities for students to participate in interstate and overseas study tours and exchanges, **Travel Restrictions Permitting in 2021**. The overseas tours / exchanges are between 1 to 4 weeks in length, the interstate tours are 1 week. Students in years 10 and 11 are able to apply to participate in any of the following study tours for 2021. The overseas tours consist of the event plus two to three days of cultural experience in hotel accommodation.

All information and application forms are available from pin boards around the building, first floor reception and the ASMS website, www.asms.sa.edu.au/international/study-tours-overseas

STUDENT EXCHANGE PROGRAMS

ASMS students stay with their exchange student family in the host country and then their exchange student stays with them in Adelaide.

Travel will not be directly supervised by ASMS staff.

Cost is travel expenses and personal expenses only

Food, accommodation, schooling, local transport and local sightseeing is reciprocal.

Experience studying at a school in another country!!

Applications Close: 30/4/2021
